- Click Through URL**
 The click through URL or landing page must be provided. Please let your traffic manager know in advance if there will be unique URL addresses per site.

- Default Ads**
 A generic default ad (one per ad size, campaign) should be sent along with the creative. A default ad will be used by the ad server if the original ads fail to load for any reason. It is recommended that this default creative be generic in nature. For example, a company logo with a click through to the home page.

- Click Tags for Flash files**
 If you will be providing a flash file, the following Click Tag must be added to the code. This ensures that the click through URL will open in a new window.

```

on (release) {
  getURL (_level0.clickTag, "_blank");
}
      
```

Material Due Dates

Materials should be sent to Novus **5 business days** prior to the start date of the campaign.

Transmission Methods

- Web Upload site:** <https://www.agentimediaservices.com>
Contact a Traffic Manager for a username and password.

- E-mail:** adops@agentimediaservices.com (4.75 MB limit) or E-mail your Traffic Manager directly.

Note: These specs are adopted from the IAB standards. Specifications may vary from site to site. Please contact your Traffic Manager for detailed information.
